

MHUSD Coding Club Newsletter!

Welcome all. We are hosting a MHUSD Coding Club with the help of the Martin Murphy MS Administration. We are going to teach your students the basics of coding. Participants will learn to make games, animations, plays, and so much more with coding. At the end of the five-week series all the students will show their code with each other and play games. If we have enough time and all students listen and pay attention we will teach them how to add mod's, texture packs, mob's, etc to Minecraft! Every student will get an email to sign up with a Zoom link. We can only accept 30 students. Hope to see y'all there! [Sign Up Sheet](#)

-Ely and Nydia

The zoom link will be emailed to the first 30.
